Sorry, I hadn't finished my last message. I have been out of the office which is why I didn't respond earlier. I understand that the hazardous waste program has received your letter and will defer to them to respond to your concern.

Krista Rave-Perkins, EPA
404 Enforcement Officer

Krista:

It's come to our attention that we neglected to add you to this email.

Do you know if a response from US EPA will be forthcoming?

Thanks.

RE: King County DPER File No. PLAT18-0007 Gunshy Manor project

Ms. Claussen:

Please find attached our Red Brick Road community letter which describes our serious concerns about risks to our health and safety which could result if this application proceeds. The Community feels the significance of these health and safety issues demands that the County reject the application until a thorough investigation can be conducted. If not, we fear the County will have put citizens at great risk and prevent the State and Federal authorities having joint jurisdiction a chance to discharge their legal authority.

**ATTN: Ecology, EPA
Ms. Bellon,
Mr. Kowalski,
Mr. Woolford,**

The Community requests that you personally inject your authority to ensure that your agency investigate the citizen concerns described in the attachment herein. We further request that you immediately take action pursuant to the Agencies' authority under the Washington State Model Toxics Control Act ("MCTA"), RCW 70.105D, and the Comprehensive Environmental, Response, Compensation and Liability Act ("CERCLA"), 42 U.S.C. ss9601-9675.

Respectfully,
Concerned Citizens of King County
